CONCORD, N.H.

Honorable Harry E. Jackson  
Deputy Secretary of State  
Concord, New Hampshire

Dear Mr. Jackson:

You have inquired by letter of April 27 as to the problem involved by the requirement contained in RSA 292:5-a that for the first time voluntary corporations are required to make an annual report and pay an annual fee, and for failure to make such report for two consecutive years such voluntary corporations shall be liable to dissolution by act of the General Court. You have further called attention to the fact that many of these voluntary corporations have inadequate addresses upon your books and records.

You are respectfully advised that from the effective date of the statute (June 1, 1956) voluntary corporations are required in each year to pay this fee and make these reports. Whether or not the address on your records is unsatisfactorily vague, at the end of two consecutive years of failure to file a report from any and all such voluntary corporations, you should certify the corporation involved to the General Court for dissolution.

At this time I would certainly recommend that widespread publicity be given in the press of the state to this list so that affected persons may have an opportunity to correct their situation, but the indefiniteness of addressees cannot affect the provisions of the statute.

Sincerely,

Louis C. Wyman  
Attorney General
